

YOUR LIFE ENERGY IS DISPLAYED ON EACH FINGERNAIL

Look at the hands to the left. Notice the white arc shape under the rear of the nails?

These are called moons.

Each hand should have 4 moons that progress from largest (at the thumb) to smallest (at the ring finger). You should never have a moon on your pinky fingernails.

Your fingernails & moons reflect the health of your vital organs

The Thumbnail

Represents the state of your intestinal tract, colon and stomach.

The Index Fingernail

Represents your liver and gallbladder (Your Liver regulates your emotions).

The Middle Fingernail

Reflects the state of your heart, lungs and general circulation.

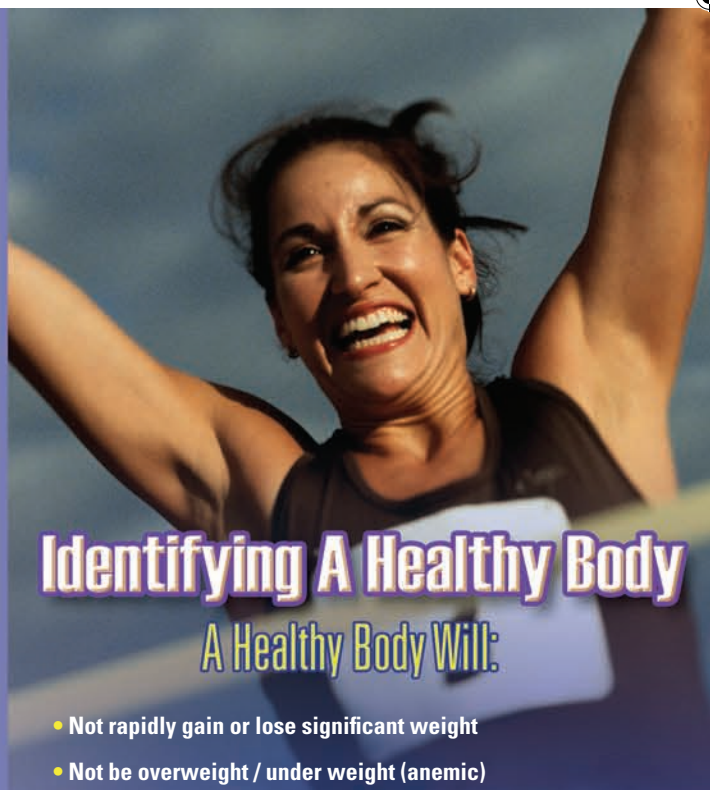

The Ring Fingernail

Represents your kidneys, adrenal glands, pancreas, sex drive and reproductive system.

The Pinky Fingernail

Reflects the state of your lymphatic system, spleen, brain and spine which are regulated by both your liver and kidneys. You should never have moons on either pinky finger.

Fingernail analysis, symptom analysis, tongue analysis and more, are fully explained in ***Diagnostic Face Reading and the Holistic You***. Your practitioner should have this book on hand.

Identifying A Healthy Body

A Healthy Body Will:

- Not rapidly gain or lose significant weight
- Not be overweight / under weight (anemic)
- Have one elimination or bowel movement per meal consumed
- Not look older than its age
- Have supple elastic skin on the body
- Not itch
- Sleep well
- Have good muscle tone
- Not have dry skin
- Not have acne
- Not have age spots
- Not have skin discolorations
- Have a healthy pink tongue
- Not have sore joints or muscles
- Have hair and nails that grow rapidly
- Have somewhat oily skin (on the face)
- Have moons on all fingers except the pinkies
- Not have recurring pain or persistent / chronic pain
- Not have uneven emotions
- Not need coffee or stimulants to start or continue the day

PRESENTS

The keystone of Human life is OXYGEN

Life Support

Without it, all life vanishes...

LIFE = ENERGY
ENERGY = CIRCULATION
CIRCULATION = OXYGENATION

Health vanishes in the absence
of these factors.

What is it?

*Lack of circulation or lack of oxygen. Every
problem of the body regardless of the details, has
as its basic element these factors.*

*This is why a toothache hurts. The decay in the
tooth has blocked the flow of energy through the
tooth. The space (or cavity) has no substance
(matter) to conduct energy flow, thus we feel pain.*

*Where energy flow / circulation / oxygen
flow has been repaired, pain dissipates and
the body heals itself.*

EXHAUSTED!!!
TIRED!!!
NO ENERGY!!!

While it is commonly accepted as normal to live
in a broken down body, it is completely avoidable.
Decay is not a normal state to live in.

Drug companies try out to convince us that
aches, pains and declining health are normal and that the
solution is to buy drugs to hide your woes. We are
taught that if we do grow old, our future will be made
easier with use of stronger chemicals.

But as one experiences pain, he withdraws from life.
If one is sedated he withdraws from life. If one is in pain
and on drugs where is he then?

Imagine a body full of energy, with healthy skin
and few if any pains to be found.

When the body is healthy, emotions do not need to
be medicated. A strong love life is normal as is a full
nights sleep. In a healthy body, energy does not need to
be found or pushed, it is there naturally.

**Your body is capable of repairing
itself naturally if given the chance. All it needs
is food, energy, circulation and oxygen.**

Answer these questions

- 1) Could your health be better than it is?
- 2) Are you often cold?
- 3) Is your circulation off?
- 4) Do you have cold hands or feet?
- 5) Do you use supplements that are not strong enough?
- 6) Do you recover easily from injury?
- 7) Do you have less than 4 fingernail moons per hand
(not counting the pinky finger, where there should
be no moon)?
- 8) Do your fingernails have noticeable ridges on them
(the surface of the nail)?
- 9) Is your skin dry?
- 10) Are you aging faster than you should be?
- 11) Do you have recurring issues with your liver?
- 12) Do you have recurring issues with your kidneys?
- 13) Are you always tired?
- 14) Are the whites of your eyes grey?
- 15) Do you look older than your age?
- 16) Do you have poor circulation in some part of your body?

**Answering yes to more than TWO of the
above questions, indicates that oxygen / energy
flow / circulation has decreased.**

Instructions For Use Of
LIFE SUPPORT™

How Many:
2-6 Capsules

How Often:
2-4 times a day

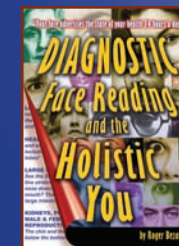

Days a Week:
6 days a week

How Long:
3 months

Maintenance:
As Needed

Practitioner Protocol:

Use **LIFE SUPPORT™** alone or with other herbal
Formulas as your practitioner recommends.

Suggested Reading:
**Diagnostic Face
Reading and the
Holistic You**
to fully grasp face reading.

Ingredients in
LIFE SUPPORT™

100% Vegetarian
Formula

Cayenne

Wasabi Japonica

Cinnamon Bark

Ashwagandha Root

Niacin

In A Base of Beet
Root Powder
